

Risk Matrix for SkateXut Project

Risk#	Risk Description	Statement
1	Procrasination /focus	I'm prone to procrastinating or lack of focus, which with the small time frame would be critical
2	Stress	It's been a tough few weeks, so there is a lot on my mind and hard to get over defeats
3	Databases not working	Because I'm new to H2 I'm guaranteed to run into problems which would significantly affect the overall project and time spent
4	Git merge conflicts	Merge conflicts can be a real pain
5	Research Rabbit holes	When running into a problem it can be easy to run into rabbit holes when trying to fix one problem, leading to more problems
6	Time limit	We have a limited time to complete the entire project
7	New to Java	I'm new to java and spring boot, and it's quite an experience, even with my existing knowledge
8	Testing	Testing can always be a pain, and problematic

Negligible	Minor	Moderate
5	10	15
4	9	14
3	8	13
2	7	12
1	6	11
